

## Friendship knot

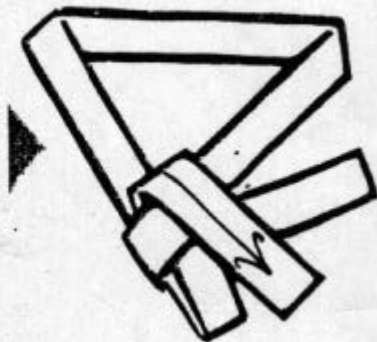

The friendship knot is used to tie neckerchiefs and is a sign of the friendship of Guiding. Ask the girls to try tying the friendship knot in the neckerchief of another girl in the unit.

- 1 Once the neckerchief has been placed round the neck fold the bottom of the left-hand side up.

- 2 Place the right-hand side over this and fold it underneath.

- 3 Fold the loose end of the left-hand side down as shown.

- 4 Use the loose end of the right-hand side to complete the knot.
